AHMED KORDOFANI

IT PROFESSIONAL

SUMMARY

Aspiring IT Professional with a growing interest in cybersecurity. I recently completed an intensive eight-week coding bootcamp at Makers Academy, which equipped me with Python programming skills and hands-on problem-solving abilities. Additionally, I deepened my understanding of cybersecurity through the Google Cybersecurity Specialization on Coursera. I'm dedicated to upholding digital asset integrity and confidentiality, and my goal is to enhance organizational security by uncovering potential threats and vulnerabilities. I'm eager to apply my skills and enthusiasm to contribute effectively to safeguarding digital landscapes in a cybersecurity role.
